DETAILS and other
information overleaf.

Biodegradable chips are
required as cushioning material
for remaining available space.

Once the box is closed, seal
in 'U' tape fashion with 75mm
adhesive tape.

Biodegradable chips, absorbent
sheets, hazard labels and sealing
tape can be purchased separately
from Air Sea Containers Ltd.

If shipping solids, there is no requirement to seal inner packaging/article(s) within individual leakproof bags.

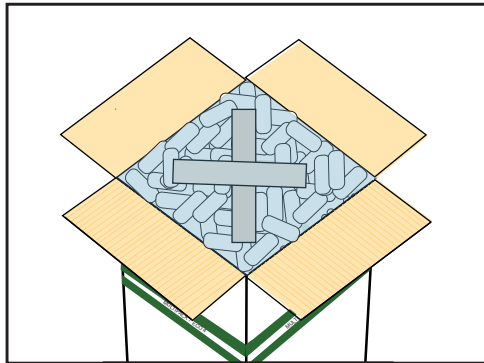

MULTIPACK - ECO4 COMBINATION PACKAGING

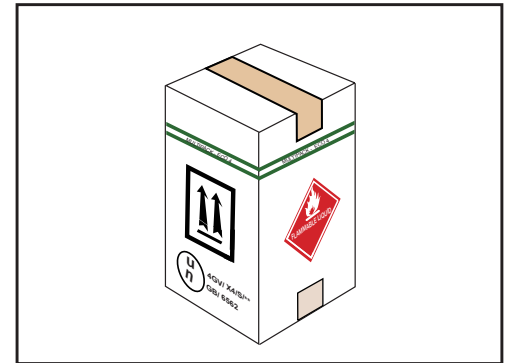

Assemble box by folding in bottoms flaps first. Seal flaps with 75mm adhesive tape in a 'U' shape

Place poly liner bag inside box and insert a minimum of 40mm biodegradable chips at the bottom. Place your inner packaging(s) - individually wrapped in absorbent sheets and sealed in a leakproof bag - inside, surrounded by a minimum of 25mm biodegradable chips in all directions.

Completely fill all remaining void space around your inner packagings - including a minimum of 25mm above. Seal poly liner bag with 75mm adhesive tape.

Close top flaps of box and seal closed with 75mm adhesive tape in 'U' shape
